We believe education and job training programs are the most powerful weapons in the fight against extreme poverty.
LOVE, FROM JULIE

If you are reading this, then you must be an important part of the REBUILD globally journey. In that case, you are part of the most important journey of my life, so I consider you family. Thank you.

Thanks for making the prosperity of others a part of your personal path. In this fight for justice, we live in solidarity. For each of us, I imagine every year brings new lessons, new disappointments, new opportunities, and experiences we could never have dreamed of. For me, this year has been about growth, both personal and professional.

For the first time in 7 years, I lived outside of our beautiful organization. I went back to school. During my MBA program at Rollins College, I sought new ways to expand our impact. I learned new solutions and perspectives from my incredible team as they led this organization to new great heights. I have been humbled by the kindness of others and the life experiences of the varying people I have had the pleasure to come in contact with.

It is the most wonderful gift for me to look towards 2018 with great hope for our world.
MISSION

We promote prosperity in Haiti by growing an educated and skilled workforce and ensuring a pathways to dignified employment

VISION

A world without poverty where all people are empowered through dignified work opportunities

OUR PATHWAYS TO IMPACT

Our Pathways to Impact are the three programs we lead in Haiti to create prosperity in our communities. As a whole, they represent our approach to sustainably fighting poverty.
THE STORIES BEHIND THE PROGRAMS

Lovely found the support and community she was missing. She found a place where she belonged, where she was accepted and respected. This was a priceless gift to her as she worked hard to complete her education.

LOVELY, EDUCATION PROGRAM GRADUATE

<tbody>
<tr>
<td>Our Education program invests in the future by providing vulnerable students financial scholarships, personalized tutoring, and mentorship. We fund full scholarships including the cost of books, uniforms, and tuition. Our bi-weekly tutoring program ensures the academic excellence.</td>
<td>Our Job Training program empowers individuals with skills, opportunity, and dignified employment. We don’t stop at training. We ensure that each graduate of our program is guaranteed a job with deux mains, a Haitian operated ethical fashion company we incubated in 2015.</td>
<td>Our Community Development program is designed in partnership with the community to respond to needs they identified as being most important. We make a difference by making it our mission to use our support systems to connect experts with local needs.</td>
</tr>
</tbody>
</table>
Employment means sustainability. It means consistent income, health insurance, paid vacation, and room to grow within a company. Our Job Training Program changes lives by taking away the stress of providing the most basic needs for families. It provides families with consistency, purpose, and hope.
OUR IMPACT IN 2017

WEEKLY

- English course added for job trainees
  - Job Training

14

- New job trainees in 2017
  - Job Training

32

- Student scholarships provided
  - Education

87%

- Of our students who tutor others in their free time
  - Education

2

- Weeks of health training added for job trainees
  - Job Training

1

- New classroom built for computer training
  - Job Training

5

- University scholarships
  - Education

100%

- Of students who expect higher GPA’s because of our program
  - Education
IN TOTAL...
